NOVEMBER NEWSLETTER

READING

In reading, students will continue Module 2 of the HMH curriculum and work toward answering the essential question, "How do people use words to express themselves?" Throughout the module, students will listen to, read, and view a variety of texts and media that provide information about the importance of words and how they are used to express ideas and feelings. In writing, students will expand on their growing understanding of using words to express themselves by creating a persuasive essay in which they inform others about a problem they see in their community and explain how they can fix it.

MATH

In Math, we will wrap up Topic 2 by continuing to build fluency with multiplication facts using patterns and properties, focusing on 0, 1, 2, 5, 9, and 10. We will then begin Topic 3, where students will use known facts and multiplication properties to learn facts with factors of 3, 4, 6, 7, and 8. Next, in Topic 4, students will learn division facts by exploring the relationship between multiplication and division.
