## Assessments

Please go to <https://teachhub.schools.nyc> OR scan the QR code and log in to your child's account to view their Assessments through the "Into Reading" icon.

## What We're Learning

### Math

In Math this month, students will learn how to subtract multiples of 10 within 100. They will focus on using concrete models, drawings, properties of operations, and different strategies based on place value to find their answers.

### Social Studies

In Social Studies this month, students will explore their role as a citizen in their community and learn how communities grow and change. Students will understand needs and wants of a community and the community workers that are needed in order to help others.

### Reading

In Reading this month, students will examine a variety of environments and natural changes in the world such as weather and water as it moves through the water cycle. They will recognize the importance of recycling and protecting the land.

### Writing

In Writing this month, students will learn about the elements of poetry. They will write a poem about something they like in nature. They will utilize the elements of poetry to draft and publish their poem.
