

Third Grade Newsletter

June 2026

FIAO and After School Tutoring has ended. Please be sure someone on the blue card with photo ID comes to dismissal to pick up your child at 2:10 PM each day.

Reminders

Please dress your child appropriately for the weather, and send your child to school with a water bottle.

Please continue to check take-home folders daily. Some correspondents are time-sensitive.

Reading

Over the next three weeks, our class will build their knowledge about people who make their communities better and stronger, with a focus on the narrative nonfiction genre. We will read texts about individuals and groups that make a difference in their local or global communities. Children will also write an expository essay that explains how one person can have an impact and make a meaningful difference in a community.

Math

Your child will be learning about geometry and the shapes found around us. They will be learning about polygons, in particular, quadrilaterals, which are polygons with four sides. Your child will learn how to describe quadrilaterals based on their angles and sides.

Important Dates
