

3rd Grade

April Newsletter

Reading

Module 6: Over the next three weeks, our class will build their knowledge about animal behavior, with a focus on the nonfiction genre. We will read texts about the behaviors and characteristics that animals use to survive. We will also write an expository essay that compares and contrasts the survival behaviors of two animals of our choice from the module.

Math

Topic 14: We are learning how to use metric units to measure the capacity and mass of objects. We also are learning when it is appropriate to use specific units of measurement for capacity and mass. In addition, your child is learning how to solve problems that involve adding and subtracting time intervals using pictorial models and tools to build understanding of elapsed time.

Bucket Fillers

301

Musa Asim & Jayden Zhang

302

Fernanda DeGrandes Reyes & Austin Jiang

303

Mia Shalamberidze & Christopher Perez Baten
