

OCTOBER NEWSLETTER

3RD GRADE

READING

Over the next three weeks, our class will build their knowledge about how people use words to express themselves, with a focus on the poetry genre and letters. We will read texts in which people share their thoughts, ideas, and feelings. Students will also write a speech on an issue that is important to them through Project Soapbox NYC, learning that that their words can make a difference.

MATH

This month we are focusing on Topic 1: Understanding Multiplication and the Division of Whole Numbers. We will be learning that multiplication is joining equal groups. For example, 5×2 is 5 groups of 2. So, $5 \times 2 = 10$. We are also learning that division is sharing equally. For example, 42 divided by 7 can be thought of as 42 crayons and 7 boxes. Each box has an equal number of crayons and there are 6 crayons in each box.
