

# 3RD GRADE

## May Newsletter

### READING

**Module 7:** Over the next three weeks, we will build our knowledge about people who make our communities better and stronger, with a focus on narrative nonfiction. We will read texts about individuals and groups that make a difference in our local or global communities. We will also write an expository essay that explains how one person can have an impact and make a meaningful difference in a community.

### MATH

**Topic 12:** We are learning that fractions are equal parts of a whole, of a set, or of a length. Seeing fractions on a number line will help enhance our number sense while also serving as a basis for future work with fractions in measuring length.

**Topic 7:** We will be learning how to collect and organize data into graphs, charts, and tables. We will be using a variety of graphs, including picture and bar graphs, to answer questions.

### BUCKET FILLERS

**301**

Annie Zhou & Wan Hei So

**302**

John Ordonez & Austin Wei

**303**

Yoselin Catinac Aguilar & Alston Cheng

### CONTACT INFORMATION

**301: Ms. Helmy**
